

**Kukkula
– Health as a
Way of Life**

Kukkula 2020–2030

Kukkula (The Hill) brings together healthcare professionals, researchers, and businesses | Will provide jobs for some 5000 people

Help us develop the Kukkula area!

The **Kukkula area**, which is located near the university and the city centre, will be built around the new **Hospital Nova of Central Finland**. The building project will be completed in the 2020. Kukkula offers investors an opportunity to participate in developing a modern centre of excellence.

The area will bring together experts and services in the preventive healthcare, the international business and research community as well as the latest digital solutions. In addition, Kukkula will be an inspiring working environment, promoting health locally, nationally and internationally. Next to Kukkula is also located **Hippos** – one of the most diverse centres for sports and wellbeing in Scandinavia.

Under construction Hospital Nova of Central Finland 110 000 m²

Investment about 500 M€ | To be completed in 2020

Planned for Kukkula Health Bazaar 50 000 m²*

Space for businesses, teaching, research, and development | Nova Academy Teaching Hospital

Living Space 60 000 m²*

A wide range of versatile accommodation solutions covering 60 000 m² | Area close to the city centre but surrounded by nature | Homes on the skyline of Jyväskylä

* According to current planning permission
